FRAKCIO

- Good afternoon, everyone: We
- have been monitoring your balances and TAGs in the new system, which is now operational. Payment confirmations and account statements are also being sent to your registered email address.
- The system will also be used to send notices and announcements, as well as share them via WhatsApp.
- Similarly, in the coming days, access codes for each house will begin to be sent out for the pedestrian gate, which will allow for increased security in the condominium.
- If you have any questions or comments, please feel free to contact us.
- Kind regards,
- Administration

PANELS

PANELS

Good afternoon, community:

We are informing you that there have been intermittent issues in the operation of the solar panels, which has caused them to shut down completely at times.

As a result, a system review was requested, and wear was detected in the power cables.

It was also determined that the main power circuit breaker was overused, so it was upgraded from 40 to 60 amps, and the affected cables were replaced. These actions were necessary due to age and natural wear and tear of the system.

Additionally, contact has been established with the supplier that installed the panels, in order to request access to the application that will allow better control over the amount of energy generated, and thus promptly detect any reduction in the system's performance.

If you have any questions or comments, please feel free to contact us.
